Our Grand Drawing, advertised to come off on Saturday, the 28th, to-day, has been postponed, for the *first* time, by order of the Board of Directors, in order to remodel the scheme to meet the urgent and almost numberless demands of our patrons, who are desirous that final Estate Prizes may take the places of those of a personal character. This course, the Board of Directors are assured, will meet with universal approbation. And the postponement is also deemed advisable, in order to allow Agents, who have not yet disposed of all their tickets, to do so at once, and make prompt returns, that a day certain may be appointed for the drawing. Tickets already sold will hold good.

JOSIAH TURNER, Jr., EDITOR.

PARTISAN COMEDY OF ERRORS.

Thurlow Weed is about to offer to the public an autobigraphy which will, we are sure, be quite entertaining, especially if he gives us the queer incidents of the anti-Masonic crusade of the earlier days of his political career. From an advanced sheet the New York *Times* gives place to the following amusing story of New York partisanry:

"In 1817 there was a disastrous split in the Republican party of this State, Governor Clinton heading one faction and Mr. Van Buren the other. A political and personal warfare of unusual virulence characterized the campaign of that year. Mr. Clinton, an able and vituperative writer, assailed the leaders of the opposite side through the columns of the New York *Columbian* and Albany *Register*. William L. Marcy, then a young man, and others replied through the columns of the Albany *Argus*. One morning a vehement article, highly denunciatory of Governor Clinton, provoked a note from the gentleman assailed to the editor of the *Argus* demanding the name of the writer. Mr. Buel, the editor, handed the note to Mr. Van Buren, who invited Mr. Charles E. Dudley, Mr. William L. Marcy, Mr. Benjamin Knower, and Judge Roger Skinner, to his house that evening. While they were discussing the embarrassing question which Governor Clinton's note had raised, the servant brought Peter H. Livingstone to the library. Mr. Clinton was at the time Governor of the State, while Messrs. Van Buren and Livingtone were members of the Senate. The conversation, as Mr. Livington discovered, was interrupted by his appearance. He said, in his usual *brusque* manner, 'You are talking secrets here, and I have interrupted you.' Mr. Van Buren replied: "Governor Clinton has demanded the name of the writer of the article in this morning's *Argus*, and we were talking of the peculiar awkwardness of exposing the writer." 'There is nothing peculiar about it,' responded Mr. Livingstone, 'nor need there be any embarrassment. Send my name to Mr. Clinton.' Mr. Van Buren remarked, 'This is no occasion for trifling, Mr. Livingstone. You know what Mr. Clinton means by his demand.' 'Yes, sir,' replied Mr. Livingstone, 'I do know, and it is just what *I* mean. I have long wanted a shot at the —— rascal.' Persisting in the avowal that he was the writer, and in the request that his name should be given up, they finally yielded, and Mr. Buel was instructed accordingly. At a late hour the parties separated. Just as the day dawned the following morning Mr. Van Buren was awakened by a violent application of his knocker, and, looking out of his bedroom window, a voice, which he recognized as Mr. Livingstone's, inquired, 'Is that you, Van Buren?' On receiving a response in the affirmative, Mr. Livingstone said, 'Let me in.' Mr. Van Buren threw on a wrapper, opened the door, and showed his visitor into the cold parlor. Mr. Livingstone said, 'What the devil were you talking about last night when I came in?' Mr. Van Buren replied, 'We were talking about your attack on Governor Clinton in the *Argus*.' Mr. Livingstone, using a strong expletive, rejoined, 'I won't stand that. You can't father your bantlings on me. I had been dinning, and was drunk when you took advantage of me.'—This rendered it necessary to re assemble the council of the previous evening. The real embarrassment was this: The article had been written by James King, a young lawyer from Orange county, who had just obtained the consent of William James, a warm personal and political friend of Governor Clinton's, to marry his daughter, under a pledge to abstain from politics and devote himself exclusively to his profession. And now, before the marriage was celebrated, Mr. King had written a most abusive attack on his intended father-in-law's intimate friend. After much and anxious consideration it was decided that Mr. Knower should call on Mr. Isaiah Townsend, a mutual friend of Mr. James and Governor Clinton, and endeavored, by stating some extenuating circumstances, to appease Mr. James. This, however, was no easy task, for Mr. James was of a stern and implacable disposition. But Mr. Townsend knew his man, drove him up to Waterford, drank two or three glasses of gin and water, and succeeded in smoothing over the difficulty. Mr. Townsend then proceeded to lay the whole matter frankly before Governor Clinton, whose sense of the humorous was touched by the awkward position in which Mr. Livingstone's sudden belligerency had placed his friends, and by the extreme delicacy of Mr. King's domestic relations. He good-naturedly withdrew his note, and took no further notice of the subject."

[Augusta (Ga) Sentinel]

A ROMANCE OF THE RAILWAY.

Madame Turner, wife of the late negro Postmaster at Macon, left Washington to visit her husband, in Macon. She purchased a first class ticket, and entered the passenger car and seated herself immediately behind some white ladies. She was not disturbed, however. At Augusta she seemed to have been inflated a little with the idea, that as she was now in Georgia, and within the jurisdiction of her distinguished lord, she could ride in any car she pleased and conduct herself accordingly. So when the train started for Macon, she again entered the car appropriated for the use of the white passengers. Three or four negroes entered the car and seated themselves around the colored Madame, and the company was soon engaged in a lively and rattling little confab, which attracted the attention of the white passengers. The Madame was heard to remark to one of her sable attendants that she had a first class ticket on that road, and intended to ride where she pleased. She made this remark in a tone of voice which showed that she intended to be heard by the whites.

By this time the conductor came through who informed his interesting customer that if she did not take the car prepared for those of her color, he would force her to do so. This raised her postal highness to fever heat, and she asserted roundly that she would not move; that she was as good as anybody, and so was her money. The conductor had his doubts about this—particularly if she got her funds from Turner, and told her that force would be resorted to if she did not move. She retorted: "Try it on." The conductor retired, and the next moment a tall, brawny stout looking man, entered the car, and walked squarely up to his work, remarked to the Madame, "You must get out of here." "I won't," was the reply. "Then I'll make you," said Brawny. "You can't," said she. "I'll show you then," and with this Brawny seized her by the arm, and in an instant he had her out of one car into another.

Our informant saw no more of the "obsterperous" feminine; but the conductor informed him that when he took up her ticket she thrust it at him as if it was a dagger, with the remark: "You shall hear from me again, sir; I'll show you who I am and what you are."

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Inland Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, AUGUST 28, 1869.

THE UNIVERSITY.

We publish to-day a second communication from "North Carolinian," on the subject of the University. The writer, as is evident from his communications, is a friend to the University, and his views as to what such an institution should be, in the main, are correct. He also appears to be sanguine of the success of the institution under the present *regime*; in that we differ with him. We yield to no one in our veneration for the honored old University of our native State; its history and its reputation are dear to us; the very walls of its buildings, and the trees that shaded its walks are sacred to our memory by the ties of association and State pride. We could not have other than the best wishes for its future glory and success. But we do not believe it will ever rise from its sack cloth and ashes under the present management. Indeed, it is almost a moral impossibility that it should do so. The whole management,—Trustees and Faculty, is cast in a party mould, and such short-sighted policy has been pursued that the people of the State have lost all regard for the institution and all connected with it. Not even the members of the Radical party of the State, who helped to make it a political, instead of a literary, institution, will patronize it themselves, but are sending their sons to Colleges and Universities outside of the State, thus virtually declaring that they have no confidence in, nor respect for, the work of their own hands.

The Uniuersiversity has entered on the second term of its *experiment* of forcing the State to recognize it as the University of North Carolina—and the failure is as signal as it was last session. True they count more noses than they did last session, but really there is no more patronage. Those in attendance merely avail themselves of the charity feature of the institution, and that is all.

In publishing the communications, therefore, of "North Carolinian," we are not doing it in any hope of improving the present status of the University, but simply to show, from one of its *party* friends what it *might* be and do, but what everybody sees and knows it *cannot* be nor do, under its present auspices. The *men* will not do—the spirit which dictated their organization will not be conciliated nor coerced into acquience with any such a partisan and imbecile substitute for a great and noble literary institution, prostituted to promote partisan purposes, and its honors bestowed as rewards for partisan services.

As an indication of the comparative estimation in which the University is held we have only to look at the other Colleges of the State. Trinity opens with upwards of a hundred students, and the number increasing; Wake Forest opens with seventy-five, with prospect of a large increase; Davidson College opens with the assurance of a larger number than any former year since the war, while the poor old University of North Carolina opens with thirteen "preps" and five who may be said to be in the regular College course, and nine of the whole number village boys, and all or nearly all, on the charity list. There is not a school in any village or Cross Roads of the State but is doing better.

JOHN QUINCY ADAMS.

At the Democratic State Convention, which assembled at Worcester, Mass., on the 24th inst, this distinguish gentleman was again nominated as the candidate of the Democratic party of the State for Governor. We learn from our Northern exchanges which publish the proceedings of the Convention that the nomination was unanimous and elicited the greatest enthusiasm.

In accepting the nomination Mr. A. delivered an eloquent and statemenlike speech which we will give our readers as soon as we find the space.

At the close of the address the following ticket was presented by the Committee on Nominations, and received the unanimous ratification of the Convention.

For Lieutenant Governor.—Samuel O. Lamb, of Greenfield.

For Secretary of State.—John K. Tarbox, of Lawrence.

For Treasurer.—Levi Heywood, of Gardener.

For Attorney General.—J. G. Abbott, of Boston.

For Auditor.—Phineas Allen, of Pittsfield.

It is generally admitted that this is the first time in many years when the Democrats have had a resonable chance of carrying the State. But the barefaced and glaring corruption of the present administration of the general government, together with the re-enactment by the last Radical Legislature of the State, of the tyranical and oppressive prohibitory liquor law, have so disgusted the people with Radicalism, that the prospects of a glorious Democratic triumph are bright and encouraging. The election comes off, we believe, on the 2d of November next.

BEAUTIES OF RECONSTRUCTION!

From the state of affairs in Guilford County, as given in the *Patriot*, we should say that reconstruction is in a condition something similar to a "gourd of fish bait" in that old county.

Judge Tourgee has decided that, in Townships in which elections are declared illegal; the old appointees of the Governor hold over, but when those who were elected are declared disqualified by the Board of Commissioners, the Clerk appoints persons to fill the vacancy. Back of all this, Judge Tourgee declares the whole election null and void.

According to the above decision of Tourgee, if a Township election is declared illegal, and the old appointee of the Governor happens to be disqualified, which in some instances is the case, it leaves things is somewhat of a muddle. Can a disqualified person act as a Township officer when appointed by the Governor, and not be allowed to act when elected by the people? Can the Clerk appoint disqualified persons to fill vacancies as well as the Governor? As Tourgee has decided the elections to be illegal, will he, or can he recognize the acts of the Justices as legal?

WHAT HAS HE TO DO WITH IT?

The Newbern *Times* of Thursday has the following news item:

A telegram from Adjutant General Fisher, yesterday, announced R. F. Lehman, Esq., and Judge W. J. Clarke as Attorneys for the State in the case of the Lenoir county prisoners. An examination will be had as soon as Judge Thomas arrives, and is ready to hear the case.

We are not posted in North Carolina reconstructed jurisprudence, (who is?) but really we should like to know what the Adjutant General, Fisher, has got to do with the legal prosecution of a case in the civil Courts. Where's the Attorney General of the State? Where's the District Attorney? Is there a clause in the Code of *Civil* Procedure giving to the military Bureau sole or joint juridiction in civil or criminal prosecutions? The necessity of appointing additional legal counsel in a case of this kind may have presented itself, in view of the general incompetency of officials for a proper discharge of their duties, but why was not the Attorney General called in? Was there doubt of competency in that quarter, also? Whatever the ground of the emergency, we cannot comprehend the connection of the military Adjutant General with the matter, and would be glad to be enlightened on the subject.

WATER—AGAIN.

Since our article of yesterday on the subject of supplying the city with water, we have met with many who express much gratification that the subject is being agitated, and all concur in the opinion that an effort in that direction is bound to succeed.

We all know that the gas company's stock is the best in the market—indeed, there is none in the market, as those holding it are not disposed to part with it; and when a share happens to be offered for sale, it commands a considerable premium.—Water is as indispensable as gas, and we have no doubt that a company organized for the purpose of supplying the city with water would be as successful, pecuniarily, as the company to supply it with gas. The city is a customer to the gas company—so it would be to the water company—many are supplied with water already—so they were with lights before the introduction of gas. The abandonment of present water facilities, such as they are, for a better arrangement, will be no more difficult than the abandonment of the old lighting apparatus was,on the introduction of gas. The cost of erecting the necessary machinery and piping for the distribution of water throughout the city, will be but little more than that for the distribution of gas; while, after the necessary works are completed, the water is found already manufactured, but the manufacture of gas is a continued expense. We draw this parallel to show that the amount of capital necessary to supply the city with water is not a great deal, if any, greater than that necessary for gas, while the chances of profit from the one are as fair, at least, as from the other.

From the best data at hand, on which to base a calculation, we are confident that water can be brought to the highest point in the city, say from Walnut Creek, a distance of three miles, for forty thousand dollars, including engine; piping; L and T joints; laying pipes and building reservoir. But these are matters to be considered after it shall be determined to form a company. That is the first step to be taken. We await suggestions on the subject. Shall a meeting be called and the ball put in motion?

Property holders are interested—Insurance Companies are interested—everybody having capital to invest is interested—everybody who drinks water or uses it in any shape or for any purpose is interested. Will the move be made?

Accounts from all sections of Maryland represent drought as prevailing to an alarming extent. No rain has fallen for weeks. In some counties the farmers despair of making even half a crop of corn.—The potato vines have become parched and dried up before maturity. The tobacco crop is suffering dreadfully.

PHILADELPHIA VITAL STATISTICS.—The number of births registered in Philadelphia in the last seven years was 112,768; the number of marriages 41,340; the number of deaths 110,840. The number of births during this period exceeds the number of deaths only 1,928. In 1862, 1863 and 1864 the deaths exceeded the births.

Some of the Cuban exiles are locating in Georgia. A few days since two Cuban gentlemen purchased a plantation of 800 acres from Mr. Charles J. Dunham, of Columbia county, at a cost of $10,000. This tract of land is situated about seventeen miles from Augusta, and is said to comprise some of the most fertile land to be found in Columbia.

The battlefield of Bull Run is the only battlefield of consequence that has not been changed since the war. The forts, the monuments, the stockades and the desolation remain as the soldiers left them.

For the Sentinel.

THE UNIVERSITY AND THE PUBLIC SCHOOLS No. 2.

The Kentucky University was chartered in 1858, and the College of Arts was opened the following year. Its complete organization was not effected until seven years later. The capital of the institution now exceeds half a million of dollars, and the number of students is not less than six hundred and fifty. Its generous and energetic founder, John B. Bowman, in a report to the Curators, says: "I want to build up a *people's institution*, a *great free* University, eventually open and accessible to the poorest boy in the land, who may come and receive an education *practical* and suitable for any business or profession in life. I want to cheapen this whole matter of education, so that under the broad expansive influences of our republican institutions; and our advancing civilization, it may run free as our great rivers and bless the coming millions."

The Cornell University, at Ithaca, N. Y., was chartered in 1865. Its capital is estimated at over four millions of dollars. Of this, Mr. Cornell gave, in cash, 525,000, with this expression, "*I would found an institution where any person can find instruction in any study.*" He could not better have expressed the true theory of what is common ly called the University system. The number of undergraduates at present exceeds four hundred. All over our land there is a general uprising in favor of popular education. Universities and Colleges are springing up and flourishing, and in many States, almost every hill top and valley is dotted with a school house. But in no one of all the States is a more generous and liberal Constitutional provision made for education than in North Carolina. She cannot afford to be idle, nor to linger too far behind her sisters. Our youth must be educated, and educated well. Many who were boys fifty years ago, and lived in sight of the village school house, or almost under the shadow of College walls, cannot to-day sign their names. To their credit be it said, some of them, by their own unassisted energy, have placed themselves among our wealthiest and most worthy citizens. But they are foremost now to educate their children. They know that ten years from to-day the illiterate man will not compete with his more favored neighbor. They *feel* that the best they can do for their children is to give them that of which no casualty can deprive them. And we have an evidence of this feeling on the part of our people. The Colleges of the State are reporting an increase in the number of their students, while the University, under serious disadvantages, with some opposition from abroad, and with a corps of Professors, claiming no superiority in scholarship over their learned predecessors, opens with encouraging prospects.

In our University and Colleges provision should and must be made to give our young men a practical education, and fit them for any and every station in life. They must not only be qualified for the bar, the pulpit and the forum, but the best instruction must be offered in Scientific, Tecnological, and normal studies, and this instruction must be accessible to all.

Our public and primary schools must prepare and send up students to the University and the Colleges, and in turn receive back from these their teachers, until the name of the University is written upon every school house, and across every heart in North Carolina. The University, as the constitutional head and centre of the public school system, must shed its light all over the State, while the public and primary schools shall reflect its splendid glory.

A NORTH CAROLINIAN.

For the Sentinel.

FALKLAND, PITT CO., Aug. 25, 1869.

Editor of the Sentinel:

Can you inform us why old Pitt, who always pays her taxes promptly, is ever law-abiding, peaceable and "trooly loil," and confessedly the best agricultural County in the State, should be "left out in the cold" this hot weather, entirely ignored and excluded by the legislature, from the great family of her sisters. We had no township elections, nor has there been an order to fill the vacancy (caused by the death of Mr. Rich) in the Senate. Of course, we have our opinions and conjectures. Among them;—it was done through the influence and instigation of the man who

'Sounds his loud timbrel o'er Carolina's dark sea,'

to show his importance, to vent his "spite and spleen," upon a people he hates and mis-represents; and to keep the hungry carpet-baggers a little longer in office.—If you should see him about the City of Oaks please remind him of the thousand negroes, now anxiously waiting his return to old Pitt, who are yet believing, and trusting in the promise he made them, at the time of his election, of "forty acres and a mule."

Our other representative (?) Dick Hilliard, from Nash, has not been so unmindful of us. Mr. Richard has been to see us, has most certainly paid us a visit! It is reported that he looked sad and disconsolate, and was heard to remark, with woful voice and trembling emotion, "that, notwithstanding the good seasons and refreshing showers, that this county was now too *dry* for him." Said he must return to Nash, that old Nash was known everywhere, and, with all her faults, he *loved her still?* So Richard tarried in the land of his constituents only one day and six hours and departed.

Our crops are exceedingly fine, both corn and cotton, and our hog crop at least 100 per cent. better than last year.

As to politics everything is in a muddle. Ned Brace, in the Georgia Scenes, had not more kinds of food, mixed, stirred and jumbled for his breakfast, than the political cauldron in this county has, of conglomerated elements, contentions, jealousies, animosities, riotous affiliations and affinities, all bubbling, hissing, seething and raging. First, the Democrats tried hard to bring out a candidate, which they could neither do nor organize. Then an effort was made to inaugurate a Chase or Walker movement, which has resulted and culminated in Radicalism so intensely hideous and vile as to be shunned and loathed by all people with decency and respectability, above a carpet-bagger or scallawag.

The Conservatives are to have a meeting to-morrow, the 26th. All good people, sincerely desire their counsel wise, action discreet, and motives pure, and unselfish may prevail; that ambition and prejudices may sink deep into forgetfulness—that harmony, concord and concert of action be the guiding incentive to conduct the canvass; whilst some good and competent man shall be the standard bearer. With these things, you will hear of the death-knell of carpet bag rule in Pitt.

The SENTINEL is very popular with us, and its "leaders" highly complimented.

FARMER.

A TRAGEDY IN COURT.—In a trial at Owensboro, Ky., on Saturday, Baker Boyd, the prosecuting attorney, made a statement respecting Congressman William N. Sweeny, counsel of the defense. The latter promptly pronounced the statement an absolute lie, and at the same instant struck Boyd with a knife, inflicting a wound four inches long on the right breast. The wound is painful, but not dangerous. The court adjourned on account of the confusion caused by the disturbance

HOPES OF GEN. GRANT.

The mental modesty of our worthy President has become proverbial, and under the title of incapacity has not been considered the chiefest of his claims to national honor and respect. He is certainly not to be responsible for want of ability, nor are the Republicans to be greatly condemned for elevating him to the high position he occupies, even though perfectly cognizant of his incompetency at the time of his nomination. One of the best known stories of Roman history preserves the fact that a flock of geese saved the seven-hilled city from destruction. Human thought runs in grooves, and as our Radical friends have so great an aptitude in retaining the theory, but failing in the practice, of the wisdom that they endeavor to make subservient to national benefit, they are not to be greatly blamed that they imagined the virtue in this case, lay in the geese not in the noise made by them. In the result of the late Presidential election, they have given us ample reason to believe that they were so persuaded. Mr. Grant is considered by no small segment of the people, in their outspoken, if not in their secret thoughts, the grand triumphant result of negro supremacy. And as the worship of dumb idols is the hereditary legacy of those dusky princes, it is proper that their new Moses should refrain from giving oral evidence of his sorrow or delight. They believe that in the deep mystery of science is being worked out the problem of national regeneration. It is true that western nations have not come to place so great reliance on this "look of wisdom" as do our Eastern brethren, but their gods are certainly the elder gods, and we may be destined to go back to "wood and stone" under the leadership of so eminent a representative of the systems. If our President should break out in wise utterances whose comprehensiveness should save us, it would not be beyond precedent. The Bibles tells of a similar gravity that broke forth under the inspiration of a flaming sword into words that insured safety to the parties interested.—The days of miracles have not gone by, and certainly this miracle, would not be more stupendous than was that. The past career of Gen. Grant indicates that he is the special favorites of the gods. They sometimes delight to mould common clay, but the touch of their fingers must impregnate it with something of divine excellence. It cannot be that there is to be no farther growth in graceful observances in this new creation of their fancies, that we are to be stranded upon the barren shore with nothing to hope for other than that we have; that this is the Alpha and Omega, with no middle ground of undulating excellence or of steady increase. Nothing, between the rise to glory and the return to obscurity, but the dead level of a barren incompetency.—'Tis most true that the past six months have given us nothing to hope for but this disgrace. If it continues many months longer, we shall have to appeal to our last hope, and after persuading our executive officer to appoint a national fast day, all join in a petition that the miracle that saved Balaam may be repeated for the benefit of this last hope of republican government.—*N. Y. Express.*

A BOY AGAIN.—We copy as follows from the Nevada *Crescent*:

A couple of gentlemen in Reno were, not long since, whiling an evening away singing and relating anecdotes, when one asked for the song "Would I Were a Boy Again," at which "Old Pi Ute," (John K. Lovejoy,) who was present, broke out as follows: A boy again! who would be a boy again if he could? to have the measels, mumps and itch, to get licked by the bigger boys and scolded by older brothers, to stub your toes, to have the belly ache from swallowing cherry stones, to have chapped hands and frozen toes, to slip up on the ice, to do chorese get whaled by a thick headed school master, to be made to stand up as the "dunce," for the amusement of the school, to have visitors to come to the school and tell you how miserably weak you were when you were born, and ask you what would have become of you at that interesting time in your life if your parents had not been so patient with and kind to you, to eat at the second table when company comes, to set out cabbage plants because you are little, and consequently it won't make your back ache much, to be made to go to school when you don't want to, to get spelled down in school, to lose your marbles, to have your sled broken, to get hit in the eye with frozen apples or soggy snow-balls, to cut your finger, to lose your knife, to have a hole in the rear of your only pair of pants when your cousin from the city comes to see you, to be called a coward if you don't fight at school, to be whaled at home if you do fight at school, to be struck after a pretty girl and darenot tell her, to have a boy too big for you to tell your sweetheart squints, to have your sweetheart cut you dead and affiliate with that boy John Smith, whom you hate particularly because he set your nose up the week before, to be made to go to bed when you know you ain't sleepy, to have no firecrackers on the Fourth of July, no skates on Christmas, to want a piece of bread and butter with honey and get your ears boxed, to be kept from the circus when it comes to town and when all the other boys go, to have the cankerrash and stone bruises, and to be called up to kiss all the old women that visit your mother, to be scolded because you like Maggie Love better than your own dear sister, to be told of what a scorching time little boys have who tell lies and are not like George Washington, to catch your big brother kissing the pretty school ma'am on the sly and wish you was big so you could kiss her too, and—oh, bah on a boy again."

LUCIFER MATCHES.—It is estimated that in all Europe two thousand millions of matches are used daily and the manufacture of matches in Europe consumes at the lowest calculation 400,000 cubic yards of wood per annum employs 500,000 workmen, and produces $50,000,000 of goods. The manufactures commenced in 1832, and the increase in the business is one of the wonders of the century. Germany, it is reported, makes the best and cheapest chemical matches in Europe. At Vienna, fifty packets, containing 4,500 matches, are sold for 35 kreutzers, which puts them at nearly 250 for one of our cents. Marseilles is the great centre of the trade in France. In the United States, a match factory in Western New York is noticed for the curious machinery used in the manufacture. 720,000 feet of pine, of the best quality, are used annually for the matches, and 400,000 feet of basswood for cases. The sulphur used annually for the matches is 400 barrels, and the phosphorus is 9,600 pounds. The machines run night and day, and 300 hands are employed at the works. 500 pounds of paper per day are used to make the small boxes for holding the matches, and four tons of pasteboard per week for the larger boxes. Sixty-six pounds of flour per day are used for paste, and the one cent stamps required by government on the boxes amount to the sum of $1,440 per day.

Mr. R. P. Jacobs, of Norfolk, Va., in eating a remarkably fine peach the other day, found the stone somewhat deformed and opened it with his knife, when, to his great amazement, he found the kernel contained two perfectly developed grains of oats.

GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."
The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.
Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.
The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
I am Agent for its sale and would be pleased to fill orders.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Occulist.
Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public.
I have the honor to be,
Very respectfully yours,
JAMES L. ORR,

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

First Bale.—The first bale of new cotton for Wake county was brought into market yesterday. It was from the farm of Mr. Jeff. Fisher, brought in and sold to Messrs. Upchurch & Dodd, at 34 cents, and sent immediately to the Depot for shipment to a northern market—what market, we did not ascertain.

Meat Stolen.—Some rogue or rogues gained an entrance into the smoke house of Major J. P. H. Ross, on Thursday night, by boring out a space in the wall with an auger, and extracted therefrom nearly a hogshead of bacon and other things. No clue had been obtained, up to last night, either of the rogues or the lost bacon.

The Board of Commissioners for Wake county were in session yesterday. No business of material importance was acted on.

Fire Company No. 1.—A meeting of Colored Fire Company No. 1, was to have been held last night, to make arrangements for the excursion to Morehead City, on the 7th; the bell was rung three or four times, but if any meeting was finally had, we think it must have been a thin one.

Grand Excursion.—There will be a grand excursion from Raleigh to Morehead City, for colored people and Fire Company No. 1, to leave Raleigh on Tuesday 7th, and return on Friday 10th, stopping at Newbern and having a Grand Ball. Tickets for the round trip $3.25.

The North Carolina Directory, is an excellent book of reference for business and professional men; indeed for almost everybody. We learn that a great many of them have been sold, and that the edition is nearly exhausted.

Belligerent.—There were two more fights in jail yesterday.

Frank Earnest and John Moore, both colored, got into a dispute in regard to the ownership of a piece of pack-thread, used for tying up their flowing ringlets, each claiming the coveted treasure. The dispute proceeded from words to blows; in the tumble the thread was lost, and nothing but a few scratches was gained by either party.

Dunk Matthis and Monk Perry raised a point of veracity, and settled it satisfactorily by fighting it out.

So Dunk and Monk
Each displayed their spunk,
Each fighting as bold as a rabbit;
They didn't first bluster
Like a "plug" on a "buster,"
Then back down like General Abbott.

The Goldsboro' *Messenger* of yesterday comes out on a half sheet, on account of failing to get paper that was ordered. We got caught in the same scrape last week on account of a misconnection of Railroad trains, and had to borrow.

The members of Back-t Company, No. 1, are requested to meet at the Mayor's Office this (Saturday) evening at 8 o'clock. A full attendance is desired, as there will be matters of importance presented for the Company's consideration.

A friend informs us that at the recent election in the Gaston Township, Northampton county, in which there is a majority of two hundred colored voters, the Conservative ticket was elected by ninety majority. After the votes were counted out, over a hundred of the colored Conservatives formed a procession and huzzaed vociferously over the discomfited leaguers.

N. C. Agricultural Society.—On the posted bills, containing the Premium List of the approaching Fair, there is the following notice: "The Executive Committee, believing that exhibitors would prefer it, has determined to give plate instead of money to the value of the respective premiums. When desired, Diplomas will be issued instead of either."

The Committee, upon reflection, has altered this rule and announces in the pamplet copy of the Premium List, that "Premiums will be paid in money, or, if preferred, in plate of their respective values When desired, Diplomas &c."

Papers in the State will please call attention to this change.

A youth seventeen years old, confined in Guilford county jail awaiting a transfer to the penitentiary, says the Greensboro' *Patriot*, has the art of shaving and cutting hair with a piece of glass with as much ease to the subject as with a razor.

Robbery and Fire.—We understand that on Wednesday night of last week the Drug Store of Capt. A. A. Mitchell, of Yanceyville, was entered by burglars, the iron safe broken open and robbed of about $400, and the store set on fire, which was discovered in time to be extinguished ere the fire made much headway. *Milton Chronicle.*

Merchants Independent Fire Company.—A full meeting of the Merchants Independent Fire Company was held at the Court House last night. J. C. Brewster, Foreman, occupied the Chair, and Joshua Ferrell acted as Secretary.

Mr. Brewster explained the object of the meeting to be to adopt a plan and take the necessary steps to procure for the Company a Steam Fire Engine.

On motion of Mr. J. Ferrell, the following gentlemen were appointed to bring the subject before the citizens of Raleigh and receive subscriptions for the purpose named—Messrs. Wm. E. Anderson, W. C. Stronach, J. C. Blake and J. C. Brewster.

Messrs. J. C. Syme, W. H. Byrd, C. D. Heartt and C. Hyatt were admitted members of the Company.

On motion of J. R. Ferrell, the proceedings of the meeting were ordered to be furnished the *Sentinel* and *Standard*, with a request for publication.

On motion, the meeting adjourned, subject to the call of the Foreman.

I got squainted with all the scool masters while I was thare and I like them purty well, speshally in sum things. They are mity savin for one thing, and I like to see folks savin. When I was thare scool master martlin told me that you tride to run a joke on him about goin in his short tale, but he sed it was cooler that way and he diddent care what you sed. He was barfooted when I was thare and it shode his independence and economy in shoo lether. Mister martlin had a lot of wood to cut when I was thare that he had got out of them old oaks he cut down, and a nigger wanted to cut it up for him; but the nigger wanted twenty cents a cord for cuttin it, but the the scool master, or perfesser as thay call him up thare wooddent give him but ten cents a cord, and perfesser Bruer was thare and he sed he wooddent give but ten cents too, so the nigger diddent git the job. Perfesser Martlin sed he want in no hurry to have his wood cut and that when the scool opened good, thare wood be plenty of stoodents that wood cut it for ten cents a cord in the way of payin for thare bord. He sed that was the way thay uste to git thare wood cut at the cullered college at Oberlin in Ohio, when he wos a teacher thare.

Now mister edditer I like to see this sort of economy, it looks like bizness and like takin keer.

I got aquainted with sum of the faculty ladies and thay sed ef people diddent hold thare tungs about Chappil Hill thay wood send for 200 solgers and thare wooddent be a house left standin of thay did cum. I hurd professer Martlin tell Burton Udby that the bad condishon of the colledge was oin to the way the folkes thare talked about it. Thay haddent ort to do it.

My boy is goin to studdy the siances, and Mister Pool said he wood put him in orthogrofy the very fust thing, and sed he was well anuff advanced to go into orthogrofy, and that he wood put him into matthymattix too before long, all of which maid me feel the pride of a father in his auf-spring. I will write agin and tell you more about Chappil Hill when I cum down to bring my lad his tother shirt. Billy Barlow that I got aquainted with, sends his respex and ses he will rite soon. A Good Definition.—The Eutaw (Ala.) Whig gives the following definition of a Radical:

"Tell us, Mr. Squibs, the difference between a white man and a white Radical." "The difference," said he, without a moment's hesitation, "is precisely this—in a white man, the white goes through and through; but in a white Radical the white goes no deeper than the skin." We smiled. "Define a Radical, Mr. Squibs, if you please," said we. "A Radical," he replied promptly, "is a creature among us afflicted with 'nigger' on the brain, to put dimes in his pocket and himself into an office." We laughed. "Why," we again asked, "is he called Radical?" "Radical," he replied quickly, "is an English derivative from the Latin word *radix*, a root, and has a similar meaning—it signifies a thing that is of more use under the ground than above it."

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined sparkling Beauty to the Complexion pleasing powerful and natural.

No lady need complain of sun, tanned, freckled or rustic Complexion who will treat seventy-five cents to Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon.

Of PHILOSOPHY OF MARRIAGE.—A New Course of Lectures, as delivered at the New York Museum of Anatomy, embracing the subjects: How to Live and What to Live for; Youth, Maturity and Old Age; Manhood Generally Reviewed; The Cause of Indigestion, Flatulence and Nervous Diseases accounted for; Marriage Philosophically Considered, &c. These lectures will be forwarded on receipt of four stamps by addressing: Secy Health Museum of Anatomy, 74 West Baltimore Street, Baltimore, Md.

"	22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker	$16,54
Equitable	17,44
North America	21,16
Brooklyn	21,09
Universal	27,24
John Hancock	18,27
The National	63,48
The Ætna	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 587 policies, received an income of seventy-eight thousand dollars, and possessed nett assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,327 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

The Daily Sentinel.

THE SUEZ CANAL AND THE RESTORATION OF PALESTINE.

The last number of the Jewish Messenger notices appropriately the work of the construction of the Suez canal, and sees in it an advanced step toward the restoration of Palestine. After referring to the Atlantic telegraph, the Pacific railroad, the tunnel through the Alps, and other memorable works of this day and generation, the Messenger says that in overcoming the most serious natural obstacles, in creating vast towns of workmen to do the manual labor of years, recalling the times of the Pharaohs, when the myriads, of Israelite slaves built pyramids and cities to the glory of the Egyptian dynasty, in concentrating upon that important point of contact between the European and Asiatic streams of population the highest engineering skill of this generation to co-operate in opening the new route to the Indies—in effecting the first step toward the regeneration of Egypt, the development of its marvelous resources, and its re-establishment as a great kingdom—the Suez canal belittles even the great works of this generation.

The paper then continues with reference to the restoration of Palestine:

Is it irrational to connect this extraordinary event with the future of Palestine?

It is becoming fashionable to deride as childish and insincere the hopes and prayers for the rebuilding of Jerusalem, the rehabitation of Palestine. We are among those who cherish an abiding faith in the realization of the prophetic word, that "the Lord will return unto Zion," and dare to avow our belief that this very opening of the Suez canal is another step towards the fulfillment of the inspired promise.

It is unfortunate that Jewish opinion is too often misconceived on this point.

If a few demand the abolition of prayers, reciting the Almighty's promise to re-establish the Jewish people in their own land, and charge that those who still believe in such restoration cannot be faithful citizens or subjects of the country of their birth or adoption, we fail to discern the inconsistency of praying that the Temple may be rebuilt and yet maintaing unquestioned allegiance to America our "fatherland."

The fact that Israelites are becoming influential in commerce and politics must not mislead. If every Jew in America resolve not to return to Palestine, there are six or seven millions of our coreligionists left to colonize the Holy Land, and a goodly proportion of these—natives of Poland, Hungary, Russia, the Danubian Principalities, North Africa—would be willing to emigrate when Syria shall once more flourish and the resources of the earth be developed.

And it is a firm article of faith with most Israelites that the Messiah *will* appear and the Holy Land be re established.

In God's own time this will come to pass. We who write and ye who read this may not enjoy the happiness of witnessing this consummation, but that the prayer for Jerusalem restored is no mechanical, no insincere aspiration, none ought to doubt who know the fealty of Israel.

"The highway through the wilderness" is progressing more steadily and surely than we may recognize—such is our limited vision; but does not the concentration of the world's thoughts on the land of Egypt, from which the children of Israel were saved from bondage to pass over the Red Sea to liberty, justify the enthusiasm some Hebrews will at least manifest for the Holy Land—the spot consecrated by their ancient glory and suffering?

In spite of the indifference and lethargy of very many Israelites, and the tendency towards materialism displayed by others, there is still an undertone of love for the Holy Land which, dormant to-day, needs but the impulse to be aroused into action. That impetus may be given much sooner than the sceptics of to-day would credit. Events are pointing towards it. This generation may not participate in the return to Palestine, and yet it is possible.

Trustee's Sale.

THE UNDERSIGNED TRUSTEES OF John Devereux, Bankrupt, under the 43d section of the Act of Congress, March 2, 1867, entitled "An act to establish a uniform system of bankruptcy throughout the United States," will sell at the Court House door in the city of Raleigh, on the 1st day of September, 1869, the interest of the said bankrupt in a tract of land adjoining the city of Raleigh on the northwest corner of the same, bounded by the land of George W. Mordecai, the late R. M. Saunders and Henry Mordecai, containing one hundred and fifty acres, on which is a handsome brick residence, with all the necessary out-houses—subject to two mortgages in favor of George W. Mordecai: one for ten thousand dollars, with interest from January 1, 1867, and the other for five thousand dollars, with interest from February, 1867

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate in any mode or form they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, for two dollars, comes in possession of a homestead, which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to THREE THOUSAND AND ONE—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents total already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.

JOHN SKINNER,
SECRETARY.
